

The Typing Pool

Email can't touch the impact made with a real typewritten letter!

Our typist doesn't use a fancy word processor, or have a selection of a million typefaces or the luxury of auto hyphenation; she can only rely on her trusty Olympia Standard and nimble fingers. But rest assured a real typewritten letter, cover sheet or envelopes, typed on your stationery or choose from our Old School papers, will command more authority than any of those modern methods.
